It's a game about hitting things with particles. That's your one sentence elevator pitch right there. **YOU HIT THINGS WITH PARTICLES.**

And it works. To a point.

It's a really weird game because when it works, when your play and the game come together and you're spinning around this arena with your swarm of particles (hence "Swarm Arena") smacking the hell out of whatever comes your way, it feels tremendous. The way the music kinda syncs up with your actions and it feels like you're performing some sort of ballet of particle death and that, honestly, is really, really something.

But then you start to lose and a lose state in the game isn't quick and clean, it's the slow removal of your ability to play the game as your swarm gets wittled down and wittled down. It's not quite a walk of shame a la Ridiculous Fishing, it's more that it seems like no-one could work out how to do this cleanly and fairly and just sort of went "that'll do". It wouldn't be such a big sin if it didn't drag the game out and into a state where it's just not, briefly, enjoyable to play. It's like your overriding memory of the last round isn't the bit where you're swooping round smacking everything with your particle army, it's the bit where you're tramping around trying to keep these two particles going to get a few extra points. It doesn't even feel like clinging on desperately, just sort of "oh. well."

Nevermind though because Swarm Arena is worth it for the moments where you are **THE PARTICLE KING** and no-one wants to stop **THE PARTICLE KING** because **THE PARTICLE KING** has **ALL** the particles and he'll particle up your face. Or something like that.

Look, it's good except for the endgame bit, OK?. Simple, but fun. I just hope the devs add some new girls because it's a bit short.. Passed first time, 10/10

Sorry, I mean 47/50. This Game is not Good,..dont play this game. worthless.. OMG, this right here is well worth what I paid for it. Well thought out, fun, short and it brings back memories for a ton of the golden games! Well done!. Quality game. +Buy Leather's video games.

SQUADALA out of 10.. This game is awesome especially if you are with a group of 4 or more friends

The first time I played this I laught the whole time!

I like it very much and rate it 5/7. It's free.

Its more of a short movie where you can look around, possibly better suited for Gear or Cardboard VR.

If you cant afford many games, you can try this and waste about 10 minutes. Cant really complain.

A nice arcade style game for casual players or hardcore ones. Basically, the tiny droids revolve around you that attack and protect you from opposing droids. A pretty good game that anyone can play and play against for a couple of bucks!. Very interesting concept, and certain parts of the game are actually quite touching and emotional, but there's a frustrating item management system, and way too many items that do absolutely nothing. The puzzles aren't really intuitive enough to say that this makes you think logically, and overall the game was ruined by a frustrating item system and convoluted storyline, at least for me.. Game is awesome. Great for all ages.. Damn nice game, be sure to change the install path from the disciples.ini to get the game working perfectly. For more info check the link below.

<http://steamcommunity.com/app/281450/discussions/0/613937943176590167/>. Sparkle 2 is a wonderful puzzle game, very similar to Zumas Revenge and the Luxor game's. This game has a magical feel to it, and a story to go as well. The music is pleasant to the ear, and the game is very addicting. If you like these type games you will enjoy this game for sure :)

[With out to many spoilers, the store page describes the game very well, what you see and hear is what you get. This game is worth the asking price, in my personal opinion :\)](#)

[I will play this game till the cows come home, inbetween other games, and at my own personal leisure.](#)

[I Love this game \u2665\u2665\u2665](#)

[Only 1 down fall, my achievement for getting all the stars in Survival did not activate and pop, must be a bug glitch :\(](#)

[. If you only ever plan to buy one or two DLC's for the VX ACE, get this one!  
It has the most actual content for your buck, giving you plenty of extra options to work with.](#)

[Most of it blends well with the vanilla and community resources packages. Just be wary that not everything will be as fleshed out as you might hope for it to be. There's some of everything, but not enough to really make that deep space epic you'd be hoping for. Nor that sprawling urban environment you could get. My advice would be to look for free resources online. By this point, there's a ton of it.](#)

[But if you wanted to find a bunch of monsters that jell great with the vanilla art style, or if you hate some of the vanilla songs and want to replace them, this will give you that. None of these DLC's are worth their full price, that's a given. But get it when it's 75% off \(it does so fairly often\), and you won't regret it.. Stellar title! I really enjoyed playing this and it was well worth buying. There is definitely things to improve upon, but I really think with time and love this game will be something great!](#)
